

How I Searched For A Device To **SAVE** Money But Instead Discovered A **SYSTEM** That Made Me A Fortune! **Get Your Own Licence NOW!**

This proposal is addressed to Company Directors, Managers, and Individuals here in South Africa who have the “guts” to take a chance, make history, and make a fortune! **This is not a joke!**

When you accept this proposal it will cost you **R3950**. An insignificant sum compared to what you are about to discover.

It will take you about 15 minutes to read this letter. But make no mistake; this might be the **MOST** important few pages you will read this year.

If you think 15 minutes and R3950 will “break the bank” then I’m sorry - I can’t help you here today. You will probably be better off giving this letter to a colleague, business partner, or friend who can see the significance of what I’m about to share with you.

If you are a company director I know you are busy. We all are. But here’s my advice. It will be in your best interests to nominate someone in your organization to make sure you get this information from me immediately.

My name is **Walter Donald Peck** and I am a businessman, philanthropist, entrepreneur, and dedicated family man. I have a beautiful wife and two kids and I’m a multi-millionaire.

I’ve been working for myself for many years. **I know how to make money**. The last time I received a salary cheque as an employee was 23 years ago. I was 29.

I started my own business and 8 years later I sold it and semi-retired at the age of 37.

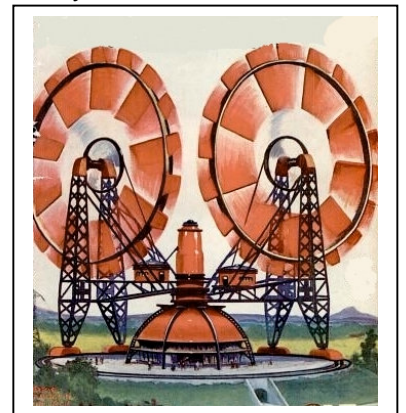

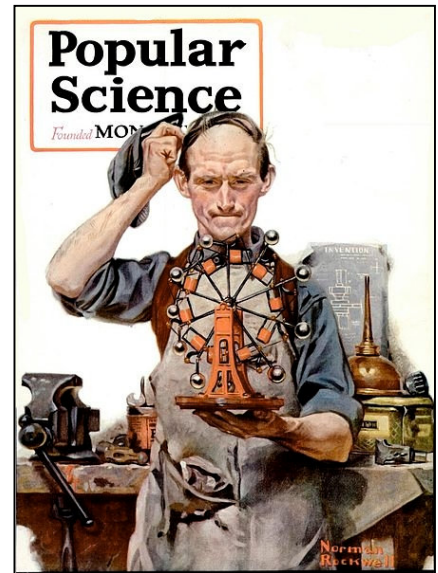

Since then I have traveled the world as much as I can. I love history and I constantly seek solutions to old (and new) problems. In the process I always discover amazing and fascinating things!

In January 2010 I started a new project to investigate the possibilities of generating electricity easily and cheaply – or even free. Now obviously the technology and the quest for cheap renewable energy are well known. I know that. Wind-and sun power have been around for 100’s of years. I was NOT interested in any of that.

What specifically interested me at the time was a set of BLUEPRINTS that were sent to me the year before by an old friend named **Joe Carl Sterling**.

It was fascinating. The documents seemed to prove that in 1926 a respected inventor developed a small motor that turned at 1800 revolutions per minute (RPM) without any external source of energy but instead received its “power” from the earth’s natural magnetic lines of force (The *G-Field* as Albert Einstein called it).

*I can’t make the inventor’s name public here but I will share it with you personally later. In the meantime I will call him **LH**.*

LH developed this “*Magnetic*” motor with the intention of powering a small airplane but at only 1800 RPM it was too slow. It didn’t work.

Just to give you perspective on the timeline here.

Air travel was BIG money and BIG business in the 1920’s. The Wright brothers had already developed the first aircraft in December 1903.

By 1920 small aircrafts were flying everywhere except long distances across the oceans. Everyone who was anyone in the industry was working on devices to make airplanes faster, better, and safer.

Charles Lindbergh was the first man to fly from New York to Paris on the 10th of May 1927 in his plane; the *Spirit of St Louis*. One of his secret weapons for victory was an *Earth Inductor Compass* that the Pioneer Instrument Company had designed and made for him.

Back then, flying across the Atlantic Ocean non-stop was dangerous and BIG news. Many people had tried it before and died. **Charles Lindbergh made it and was a hero!**

According to reports LH apparently got his idea of an *Earth Magnetic Generator* while working on the magnetic compass for Lindbergh’s airplane. He discovered that the compass started to “spin” when the normal earth magnetic fields were “cut” in a specific sequence. This concept was also known as “Perpetual Motion”.

Now the idea of “Perpetual Motion Machines” wasn’t new. Not even as far back as the 1920’s. **But** it was controversial because it violates the first law of thermodynamics (The principle of creating energy out of nothing – i.e. free energy).

It’s also a fact that during the last 250+ years scientists have been trying to create free energy and have experimented with “Perpetual Motion” but all have failed.

Even **Leonardo da Vinci** made a number of drawings of devices he hoped would make free energy.

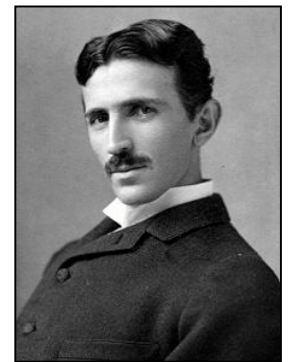

Another well-known and respected inventor of the time (a few years before LH) was **Nikola Tesla** (1899). He claimed to have discovered an abstract principle on which to base a workable *Perpetual Motion Machine*. No prototype was ever produced though.

Today Tesla is regarded as one of the BIG names in “magnetic and free energy”. He also has a number of patents that are registered in his name for discoveries we still use today.

Needless to say, my research was fascinating.

I worked day and night. On closer investigation into my **BLUEPRINTS** I also found that there were many false claims about this. Some so-called “inventors” run scams to trick governments and private investors out of their money. **But I was able to confirm the following:**

LH did indeed build a number of prototype machines in the early 1920’s and later built a generator that produced “free” electricity. But that’s not all. During the period from 1926 to 1929 LH demonstrated his devices to:

- 13 Government officials.
- 15 Army officers.
- 18 Corporate officials in the automobile and aircraft industry.
- 11 Newspaper reporters from 3 different publishers.
- And many more individuals including **Charles Lindbergh** who was apparently very impressed with what he saw.

The New York Times and other newspapers published 28 different articles about this miracle generator / machine during this period. **And then suddenly - everything stopped!**

The rumor was that **LH** had been paid **\$25 000** to STOP pursuing his developments and to STOP manufacturing his generators. (About R3 million in today's terms)

In 1956 however an interesting thing happened. **LH** received an invitation from the Mexican Government to help them build his generators for a rural development program.

This gave **LH** the protection and opportunity he was looking for. He and his family flew to Mexico City where they stayed for 3 weeks while **LH** worked on a **new set of BLUEPRINTS** alongside the Mexican Government officials.

Things were going well but then one day **LH** didn't come home from work. He was found later, miles from home, in Los Angeles, dead. His family didn't believe it at the time but his death certificate indicated suicide.

Now! Apparently it was these **“Mexican Government Blueprints”** that my friend Joe C Sterling sent me.

Today most scientists still believe that the idea of *Perpetual Motion Machines* is crazy and cannot work. They say it simply violates the first law of thermodynamics – end of story.

But open-minded scientists also admit that they don't know everything. They would say things like; “there are still many things in the universe we don't understand. We just don't know. Tapping energy from the earth's magnetic fields is one of the mysteries we don't understand – we don't even know if it's possible.”

But I Didn't Stop My Research! As I continued investigating I discovered something I Was NOT Looking For!

What I am about to share with you will shock you!

Like most people I have always wondered if BIG corporations know something that they're not telling us.

I phoned a business colleague to find out more. He is a well-connected professor, he knows business science, and he's on many corporate boards and a CEO of at least one company I know of.

I made an appointment to see him to ask only one question (He prefers to remain anonymous so I will just call him the Professor).

My question to the Professor was this: **"Do the big boys in energy know something we don't – are they hiding something from us?"**

The answer he gave to me that morning was NOT quite what I was looking for.

In short he said something like this:

"...I can't tell you what the truth is and you will probably never find out. What I can tell you is this;

The size of the industries we are talking about here is massive. If any of these companies should close their doors because nobody needs their expensive fossil fuels anymore it will be a disaster. Governments all over the world will be in trouble. They will have to find a new tax source to replace the taxes they currently get from oil. Oil-rich countries will collapse; wars could even break out. The entire world's economy would collapse in the blink of an eye.

My point is this. If you are indeed right THIS is the reason why you will never find the truth. At least not now, and not yet.

But I'm prepared to tell you this "secret"!

Yes, we will run out of fossil fuels some day. Latest estimates show the new gas resources we've recently found can last for another 100 years but it comes with heavy risk and a huge price tag.

Free & Renewable Energy is already big business. It's **NOT** going to stop! In fact it's probably going to grow by **1000%** in the next 10-15 years.

There has NEVER been a better opportunity for individuals and small businessmen to make money in THIS market then right now!

Get in IMMEDIATELY before it's too late. Look around you; we are on the brink of amazing discoveries in this field! Millionaires and billionaires will be made overnight and it will be your neighbor, your friends, or colleagues that will walk away with the honors – not the scientists."

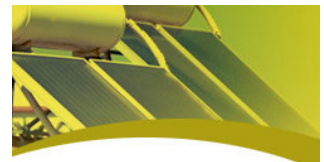

There you have it! The background and the facts! **This was more than 2½ years ago.**

Following my appointment with the Professor I immediately decided to start my own **Free & Renewable Energy** business. I wanted to go global so I bought myself an established online business. It was the BEST decision I've ever made.

Today my online business is making me a fortune!

I have a nice and large following of fans and clients all over the world. Most of my followers build their own devices to generate free energy. They buy from my online shop daily and I keep them *in the loop* of new developments in the industry monthly.

But there is more...

It is also GREAT to have an ONLINE business because:

- I don't work hard – once a week is enough. The money just keeps on flowing in, day after day, month after month - automatically.
- I don't keep any stock or do any distribution myself. The suppliers do it. It's brilliant.
- I don't take any risk – this is a risk free business runs itself with zero overheads.

- I found a way to “outsource” 99.9% of my business so that I can relax. In this way I can concentrate on having fun. **My business works for me, I don’t work for it!**

If it were not for my friend Joe Sterling that send me the **BLUEPRINTS** I would NEVER have started my own **Free Energy** business AND I would never have discovered this brilliant opportunity.

Joe and his wife Sam (Samantha) died in a terrible accident a few months ago. They had immigrated to Australia about a year before to follow their own dreams. They didn’t have any family or children to leave his work and legacy to.

So! In memory of my dear friend Joe C Sterling - I am offering you **TWO** incredible opportunities today.
Here they are:

ONE — I’m going to send you the complete copies of my friend Joe Sterling’s new **BLUEPRINTS**. Plus I’m also going to send you most of the things that I have collected during my investigations. It’s important that you know what the truth is to avoid the scams. I’m going to give this to you **100% free**. I will not ask you a single sent for this! It’s my **GIFT** to you.

BUT there’s more....

I am doing this for a good reason. I want you to try and build your own **Magnetic Generator**. Unfortunately I haven’t had the time to test these new **BLUEPRINTS** of Joe yet. You should also read the box on the last page of this document to understand why.

However, according to the schematics, which I will also send you, this generator will cost you about R1 500 to build if you buy everything new.

- It will cost you NOTHING to run.
- It has no maintenance at all.
- It is 100% silent and does not need any magnetic recharging for at least the first 3000+ hours. You recharge it like a cellphone.

This generator should generate enough power to supply a small house with electricity 24 hours a day, 7 days a week. You can build two or three if you need more electric power.

TWO - I am going to **give** you your OWN **Free Energy** online business. You will get an exact “copy” of my own business to make your own fortune!

It’s like having your own franchise – just much BETTER.

- It’s better because there is no rent to pay for a shop or office space.
- There are no royalties to pay. Nothing!
- There is no inventory to buy, no stock to keep, and no salaries to worry about.
- There is no boss to report to – YOU are the boss!

I want you to order your **FREE ENERGY ONLINE BUSINESS** right now! But before I close this letter I want to remind you of something.

In the beginning of this letter I called upon Company Directors, Managers, and Individuals here in South Africa who have the guts to take a chance, to make history, and to make a fortune. The “guts” I was talking about was NOT to run and make money with your own online business. **That is easy. You WILL make money, there is absolutely no doubt in my mind - I am 100% sure of it!**

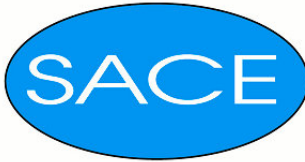

What I am not sure of is this:

Building or trying to build an *Earth Magnetic Generator* is not easy. You need *guts* and you need to think “*outside the box.*” You may need to “break” *the laws of physics.*

Read in the block on the next page to see what I am trying to say here. Yes, I also failed once BUT it didn't stop me. Don't let it stop you.

If you read this sentence right now, you have read this entire letter. I want to **congratulate** you because most people (48 out of 50 to be exact) would have stopped already. You didn't – YOU have the *ability and guts* to make miracles happen if you put your mind to it. Today I wrote this letter especially for **YOU!** I want **YOU** to make money but I also want you to try new things – like building your own *Earth Magnetic Generator*. Thank you for reading this proposal, **you are amazing!**

I only have a few licenses so please act now! Complete the order below TODAY before all the licenses are issued – you may NEVER see this offer again!

DVD Mystery And Secret

I only received Joe's final *new blueprints* from his estate a few weeks ago. I haven't tried to build the generator device from these new blueprints yet. I did however supply copies of the original blueprints to a mechanical man some time ago, paid him, and asked him to build the device for me.

For some reason he couldn't make it work. When I phoned him a few days later he just said to me: "Sorry, *I can't figure it out, for some reason I just can't get it to work.*" I have never heard from him again. I will now appoint an engineer.

THAT is why I'm going to GIVE you all the blueprints for FREE. I am not asking any money for it. Maybe YOU can figure this out. Maybe you can build LH's device for yourself and let us know.

I'm not a technical guy and not an electrician, in fact I'm far from it.

I know nothing about earth magnetic fields or electric currents, only the little bit that I have picked up during my investigations. What I do however understand is that it can be a tricky business to work with magnetic fields in the context of this device.

But before you lose hope, I have something else I have NEVER told anyone about before. Neither have I showed it to anyone before except our attorneys.

Today I can tell you about it for the first time. I have a complete DVD film that shows the step-by-step building process of this magnetic generator. It's built according to the schematics and blueprints I'm going to send you.

We found it among Joe's documents. The DVD shows everything from start to finish. On the DVD it looks like the finished product (generator) works perfectly. **I'm also going to send you this DVD so that you can see it with your own eyes.** I have no idea where Joe got this DVD from.

We couldn't find the technicians that build the generator device on the DVD and neither could we find the device itself amongst Joe's stuff.

I took the DVD to our attorneys to look for any copyright infringement issues, patents, or trade marks to make sure that I will not violate any of these issues if I send you a copy. **The attorneys gave me the GREEN LIGHT to send you a free copy as long as you don't distribute it or make it public.**

I know YOU have the GUTS to build this! Why not do it now?

I am not saying this lightly. What you are going to discover in your new business is going to change your life forever. You are going to see the art of moneymaking on a global scale as never before. You are going to find a business system beyond your wildest dreams – that is my guarantee to you! **But there is more...**

Your new online business WILL make you money. There is absolutely no way that it can't. All you have to do is follow the steps I will provide to you. **Please do not wait!** I will confirm receipt of your order form via email or SMS immediately. In this way you will know we have received it! You will also receive the complete roll-out plan and estimated date of delivery of your new business.

YES, I want my OWN **International Renewable & Free Energy Online Business** and I want to make money with my business. Yes, send me my **FREE GIFT**, which is the **BLUEPRINTS plus DVD** so that I can try to build my own Magnetic Field generator. I realise that to build the generator is not an exact science and understand that I have no guarantees that the generator that I want to build will work. However, I order this package with the understanding that my **Online Business** will be 100% functional and that I can make money from it as set out in the operations manual, training and *Sterling System* that I will receive - irrespective whether I will get the magnetic field generator to work or not.

THUS, the ability to make money with my **Renewable & Free Energy Online Business** DOES NOT depend on my skills to build the said generator. **My online business makes money independently from this!** I also order this package with the understanding that if I am not completely satisfied with this business system, I have 14-days in which I can re-sell it to Boulevard* for 100% of the purchase price minus the direct 3rd party set-up costs of R1950. I fully understand that these set-up costs are not refundable. I will however be allowed to keep my **free gifts** and I also have the option to re-sell my entire online business system on the open market. My details and payment options are marked below.
